Sir:

In response to the Official Action dated August 5, 1996,
please amend the subject application as follows:

IN THE CLAIMS:

Amend Claim 1, as follows:

1. (Twice Amended) An instrument for forming a centered bone in a femur in preparation for implantation of a femoral prosthesis, wherein the femur includes an intramedullary canal defined by an interior wall of cortical bone, the instrument comprising:

a handle joined to the end of an elongated rod sized to be received within said canal; and
